

## Summative Task #2 – Photo Collage

Categories	Level 1	Level 2	Level 3	Level 4
Exposure/Contrast	Tonal quality is flat; very little contrast in colour and neutrals makes the focal points blend into the background.	Tonal quality is fair; little contrast in colour and neutrals.	Tonal range is good overall; some parts of the images could use more contrast.	Photo images are excellent with good contrast and range of light to dark tones to enhance the focal point.
Focus	Photos are very pixelated and/or blurry; images were obviously photographed incorrectly OR Photoshop tools were used incorrectly.	Fair detail in images; selective blur & sharpening could enhance some parts of the image.	Good details in images; selective blur & sharpening would enhance parts of the image.	Excellent detail in highlights, shadows & midtones, makes a good clear images. Initial photos were obviously taken with proper camera settings selected.
Creativity	Photos does not show a creative approach to the assignment.	Fair representation of assigned objectives; lacks originality and shows little or no evidence of trying anything unusual.	Good representation of assigned objectives. The student has explored creative solutions to the assignment.	Images demonstrate a very creative approach to the assignment; student has expanded on the basic requirements. It is clear that the student explored several choices/solutions to the assignment.
Composition	Photographs do not demonstrate visual interest and creativity in composition, framing, and subject matter.	Photographs demonstrate little visual interest and creativity in composition, framing, and subject matter.	Photographs demonstrate some visual interest and creativity in composition, framing, and subject matter.	Photographs demonstrate exceptional visual interest and creativity in composition, framing, and subject matter.
